February 2, 2013

Dear Thomas,

I thank you for being our guest speaker on January 13, 2013 at our Informational District Meeting, Believing in Yourself & Presenting Your product.

Your presentation was inspirational and motivating. I have had many comments on how you related your Transformation to becoming a more proficient professional by relating your own personal experiences. This made it possible for us to relate and connect your past experiences with our present ones.

I liked the way you got out in-front of the podium and walked around the floor presenting your message to all present. You not only motivated us but touched our hearts with some of your stories.

Sincerely,

DG Bruce Jellison
